## 01 Core Values

| Item                  | Public value                                      |
|-----------------------|---------------------------------------------------|
| Campaign              | 38 encounters; ends after Current Vintage         |
| Main deck             | 99 with 1 commander; 98 with 2 Command Zone cards |
| Deck floor            | 60 cards                                          |
| End-of-run retention  | 3 cards + Inheritance levels                      |
| Maximum interest      | 30%                                               |
| Maximum retained gold | 40%                                               |
| Permanent reduction   | 750 gold at the Surgeon                           |
| Instant Deckbuilding  | 35 permanent-card-pool cards targeted by default  |
| Maximum life          | 20 before skills                                  |

### Progression formulas

Encounter n gold:  $100 + 5 \times (n - 1)$ .

Cumulative gems after position n:  $20 + 5 \times n \times (n - 1)$ .

Shop reroll: 40 gold, -10 per Reroll Discount level, minimum 10; +10 for each additional reroll in the same shop.

## 02 Campaign Order

| #  | Opponent           | Gold | Cumulative gems |
|----|--------------------|------|-----------------|
| 1  | Welcome            | 100  | 20              |
| 2  | Starter — Ancient  | 105  | 30              |
| 3  | Starter — Past     | 110  | 50              |
| 4  | Starter — Current  | 115  | 80              |
| 5  | Sealed — Ancient   | 120  | 120             |
| 6  | Draft — Ancient    | 125  | 170             |
| 7  | Sealed — Past      | 130  | 230             |
| 8  | Draft — Past       | 135  | 300             |
| 9  | Sealed — Current   | 140  | 380             |
| 10 | Draft — Current    | 145  | 470             |
| 11 | Pauper — Ancient   | 150  | 570             |
| 12 | Peasant — Ancient  | 155  | 680             |
| 13 | Standard — Ancient | 160  | 800             |

| #  | Opponent                 | Gold | Cumulative gems |
|----|--------------------------|------|-----------------|
| 14 | Pauper — Past            | 165  | 930             |
| 15 | Peasant — Past           | 170  | 1070            |
| 16 | Standard — Past          | 175  | 1220            |
| 17 | Pioneer — Ancient        | 180  | 1380            |
| 18 | Pauper — Current         | 185  | 1550            |
| 19 | Peasant — Current        | 190  | 1730            |
| 20 | Highlander — Ancient     | 195  | 1920            |
| 21 | Duel Commander — Ancient | 200  | 2120            |
| 22 | Standard — Current       | 205  | 2330            |
| 23 | Modern — Ancient         | 210  | 2550            |
| 24 | Pioneer — Past           | 215  | 2780            |
| 25 | Highlander — Past        | 220  | 3020            |
| 26 | Duel Commander — Past    | 225  | 3270            |
| 27 | Pioneer — Current        | 230  | 3530            |
| 28 | Modern — Past            | 235  | 3800            |
| 29 | Highlander — Current     | 240  | 4080            |
| 30 | Duel Commander — Current | 245  | 4370            |
| 31 | Legacy — Ancient         | 250  | 4670            |
| 32 | Modern — Current         | 255  | 4980            |
| 33 | Vintage — Ancient        | 260  | 5300            |
| 34 | PreModern                | 265  | 5630            |
| 35 | Legacy — Past            | 270  | 5970            |
| 36 | Vintage — Past           | 275  | 6320            |
| 37 | Legacy — Current         | 280  | 6680            |
| 38 | Vintage — Current        | 285  | 7050            |

## 03 Visible Skills

| Skill           | Costs per level (gems)                                |
|-----------------|-------------------------------------------------------|
| Starting Gold   | 20 / 35 / 55 / 80 / 110 / 145 / 185 / 230 / 280 / 335 |
| Reroll Discount | 40 / 100 / 200                                        |
| Interest        | 60 / 140 / 300                                        |

| Skill             | Costs per level (gems)                                     |
|-------------------|------------------------------------------------------------|
| Gold Retention    | 15 / 25 / 40 / 60                                          |
| Commander Reroll  | 30 / 80 / 180 / 400 / 800                                  |
| Booster Size      | 40 / 90 / 160 / 250 / 360                                  |
| Starting Choice   | 100 / 250                                                  |
| Greed             | 50 / 150 / 300                                             |
| Inheritance       | 120 / 300 / 600                                            |
| Deck Reduction    | 60 / 100 / 160 / 240 / 350 / 500 / 700 / 950 / 1250 / 1600 |
| Maximum Life      | 10 to 105, in steps of 5, across 20 levels                 |
| Extra Life        | 180 / 450                                                  |
| Contract Stacking | 50 / 130                                                   |

## 04 Contracts and Tools

### Unlocking and rewards

Automatic unlocking for each exact boss, retained between runs. The choice remains optional: a drawback applies only when the contract is accepted at Pre-Combat.

| Tier    | Unlock condition for this boss               | Gold bonus at encounter level N |
|---------|----------------------------------------------|---------------------------------|
| Minor   | 1 previous victory against this exact boss   | $15 + 5 \times (N - 1)$         |
| Major   | 2 previous victories against this exact boss | $30 + 10 \times (N - 1)$        |
| Extreme | 3 previous victories against this exact boss | $50 + 15 \times (N - 1)$        |

### Drawback catalog

| Tier    | Possible drawbacks                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Minor   | Commander tax +1; no mulligan; opponent scries 2 after mulligans; opponent starts at +5 life; no spell on turn 1; first noncreature spell costs +1; first commander cast costs +1.                                                                                                                                                                                                                                                                                                                               |
| Major   | Commander tax +2; lose the toss and opponent starts at +5 life; opening hand of 6; opponent starts with a Treasure; first two noncreature spells cost +1 each; opponent starts with one extra card; first commander cast costs +2.                                                                                                                                                                                                                                                                               |
| Extreme | Lose the toss and opponent starts at +10 life; opponent deck has a commander; opening hand of 5; opponent starts with two Treasures; commander locked for this encounter; opponent starts with two extra cards; first commander cast costs +3. Opponent commander: the GM chooses a legendary creature from the opponent decklist. If none exists, the GM chooses any commander. The opponent ignores color-identity restrictions and may keep four main-deck copies plus the Command Zone copy, for five total. |

Contract Stacking: the player can normally accept 1 contract. Each skill level allows 1 additional contract in the same encounter; drawbacks and gold bonuses stack.

## Public tools

| Timing               | Tools                                                     |
|----------------------|-----------------------------------------------------------|
| Before combat        | Reconnaissance; Scouting; Toss; Sabotage; Forced Mulligan |
| During opening hands | Known Hand; Protected Mulligan; Stable Hand               |
| After a defeat       | Best-of-Three                                             |

## 05 Prices and Encounters

### Base prices

| Product                     | Price                                 |
|-----------------------------|---------------------------------------|
| Common card                 | 25 gold                               |
| Uncommon card               | 50 gold                               |
| Rare card                   | 110 gold                              |
| Mythic card                 | 150 gold                              |
| Set booster                 | 70 or 120 gold depending on the offer |
| Common specialized booster  | 70 gold                               |
| Multicolor or typal booster | 80 gold                               |
| Rare/Mythic booster         | 120 gold                              |

### Encounters — reference text

| Encounter     | Effect                                                                                                                                                                                                 |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Collector     | Remove a rare or mythic card from the run deck or sideboard, then choose 2 set boosters or 100 gold. Command Zone cards cannot be removed.                                                             |
| Cartographer  | Choose a compatible color combination, reveal 5 lands that produce exactly those colors, and choose 2. Cost: 45 gold.                                                                                  |
| Alchemist     | Up to 5 conversions: 3 commons → 1 uncommon; 3 uncommons → 1 rare; 3 rares → 1 mythic; 3 mythics → 1 set booster. Costs may come from the permanent card pool and/or run deck, never the Command Zone. |
| Hunter        | Reveal 5 cards from the defeated deck and choose 1 for free; a fallback is shown if none are compatible.                                                                                               |
| Counterfeiter | Pay 35 gold, play a second copy of one card during this run, and record its name in Active Effects.                                                                                                    |
| Demonic Pact  | Choose a reward. The next boss starts with a random Magic emblem drawn by Scryfall; The Ring is excluded.                                                                                              |
| Surgeon       | Permanent deck reduction: 750 gold. Extraction removes a card from the permanent card pool only.                                                                                                       |

## 06 Favors

| Family                 | Favor effect                                                                                                                                        |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Welcome                | Next purchase: –30 gold.                                                                                                                            |
| Starter                | –50% on one purchase or booster.                                                                                                                    |
| Sealed                 | The next booster reveals 5 additional cards.                                                                                                        |
| Draft                  | One individual card is free.                                                                                                                        |
| Pauper                 | Reveal 5 commons; choose 2 for free.                                                                                                                |
| Peasant                | Reveal 5 uncommons; choose 1 for free.                                                                                                              |
| Standard               | Next set booster is free.                                                                                                                           |
| Pioneer                | Reveal 5 rares; choose 1 for free.                                                                                                                  |
| Highlander             | Choose the next shop; automatic 10% discount.                                                                                                       |
| Modern                 | Visit two shops in succession.                                                                                                                      |
| Duel Commander         | +2 choices in one booster.                                                                                                                          |
| PreModern              | +1 choice in one booster.                                                                                                                           |
| Legacy — Banned Card   | At the next shop, draw a random competitively banned card. Rerolls are free as needed; take one card for free.                                      |
| Vintage Ancient / Past | Forbidden Archive: at the next shop, enter a precise Vintage-legal or Vintage-restricted card; it is added directly to cards gained during the run. |
| Vintage Current        | Campaign complete.                                                                                                                                  |

## 07 Instant Deckbuilding Reference

### EDHREC order

1. Average Deck — Bracket 2 — Budget.
2. Average Deck — Bracket 2.
3. General Average Deck — Budget.
4. General Average Deck.
5. No profile: free Command Zone reroll.

### Priorities and constraints

- Rentals: only from the first Average Deck profile found.
- Card pool: cross-reference other profiles, then Cube Cobra Elo and combo analysis.
- Power Nine: priority above other recommendations.
- Combos: only permanent-card-pool cards influence the combo portfolio; packages sharing pieces are favored.
- Isolated dead piece: penalized until a legal line is completed.
- Card without an Elo score: last-resort filler.
- Mana: 38 lands per 99 cards, scaled proportionally; each original Mox replaces one land.
- Fetch/search: a target with the required type must be present.

## 08 Public Default Settings

| Setting           | Default |
|-------------------|---------|
| Owned-card filter | Enabled |

| Setting                                | Default                                                          |
|----------------------------------------|------------------------------------------------------------------|
| Magic Only                             | All Cards                                                        |
| Magic Only in Instant Deckbuilding     | Enabled; separately configurable                                 |
| Interface language                     | English                                                          |
| French Mode                            | Disabled unless selected by the group                            |
| Strict French Power Nine exception     | Enabled; can be disabled                                         |
| Instant Deckbuilding owned-card target | 35 cards; range 0–60, capped to fit the final deck and mana plan |
| Sets avoided in French                 | Empty editable list                                              |
| Minimum deck                           | 99 minus reductions; floor 60                                    |
| Maximum life                           | 20 before skills                                                 |

## 09 External Tools

| Tool       | Official address                                                          | Use and precaution                                                                                                                            |
|------------|---------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Moxfield   | <a href="https://moxfield.com/">https://moxfield.com/</a>                 | Optional: Collection mirrors the permanent card pool and supports manual deckbuilding. Use a dedicated account whose collection starts empty. |
| Cockatrice | <a href="https://cockatrice.github.io/">https://cockatrice.github.io/</a> | Game client and decklist import. After installation, run Oracle to download the card database.                                                |

## 10 Troubleshooting

| Symptom                          | Action                                                                          |
|----------------------------------|---------------------------------------------------------------------------------|
| Scryfall or network error        | wait, retry once, then accept a partial result or free replacement              |
| two shops appear to load         | leave the current screen to cancel it, then wait before restarting              |
| EDHREC 403 or unavailable        | let the assistant try the next profile; use the free reroll if no profile works |
| no basic land resolved           | check color identity and assistant version; do not force an incomplete list     |
| double-faced card not found      | search using the front-face name                                                |
| French image missing             | Moderate: keep English; Strict: reject, unless the exception is enabled         |
| permanent card pool not retained | confirm the selection, export, then verify the list in Settings                 |
| corrupted save                   | do not reset before attempting to import the latest JSON backup                 |

### Update checklist

- Export the active save.
- Keep the previous HTML file until the new version is validated.
- Open the new version, import the JSON, verify the saved state, and run one test draw.
